

TUTORIAL – HOW TO SEARCH FOR ESMO 2016 ABSTRACTS ON ONLINE PROGRAMME

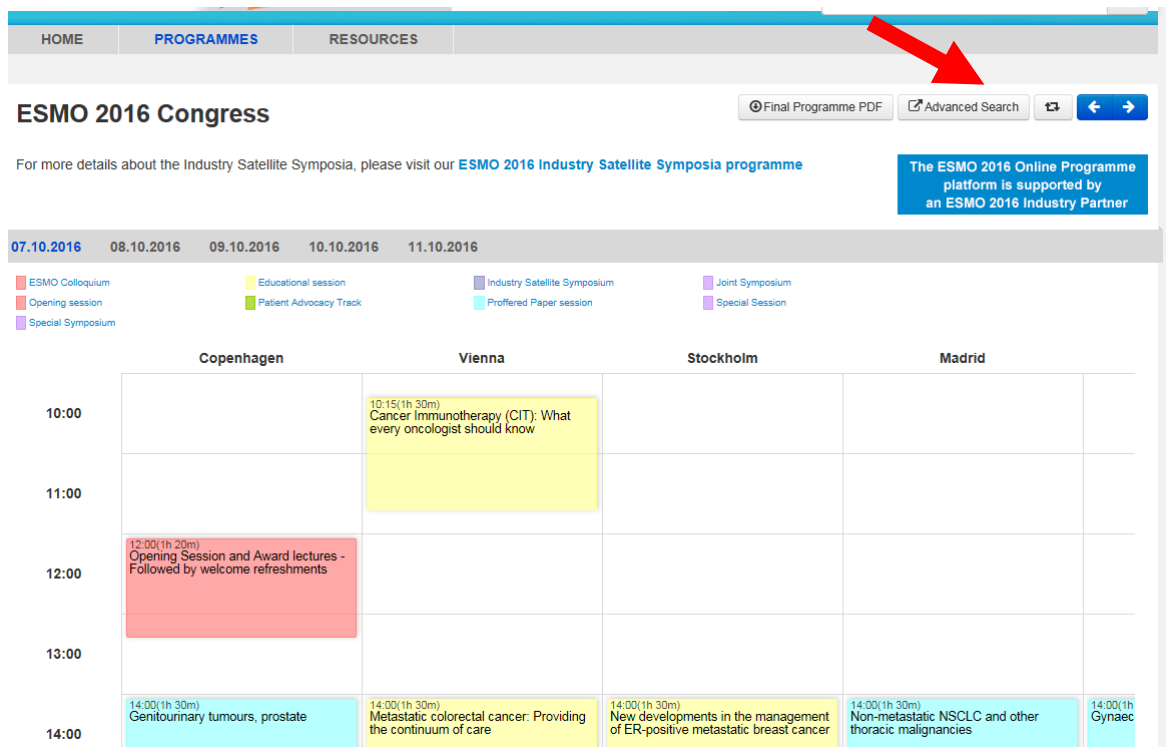

➤ FIRST STEP:

Access the ESMO 2016 online programme here:

<https://cslide.ctimeetingtech.com/library/esmo/browse/itinerary/5286>

➤ SECOND STEP:

Click on “Advance Search”

ESMO 2016 Congress

For more details about the Industry Satellite Symposia, please visit our [ESMO 2016 Industry Satellite Symposia programme](#)

The ESMO 2016 Online Programme platform is supported by an ESMO 2016 Industry Partner

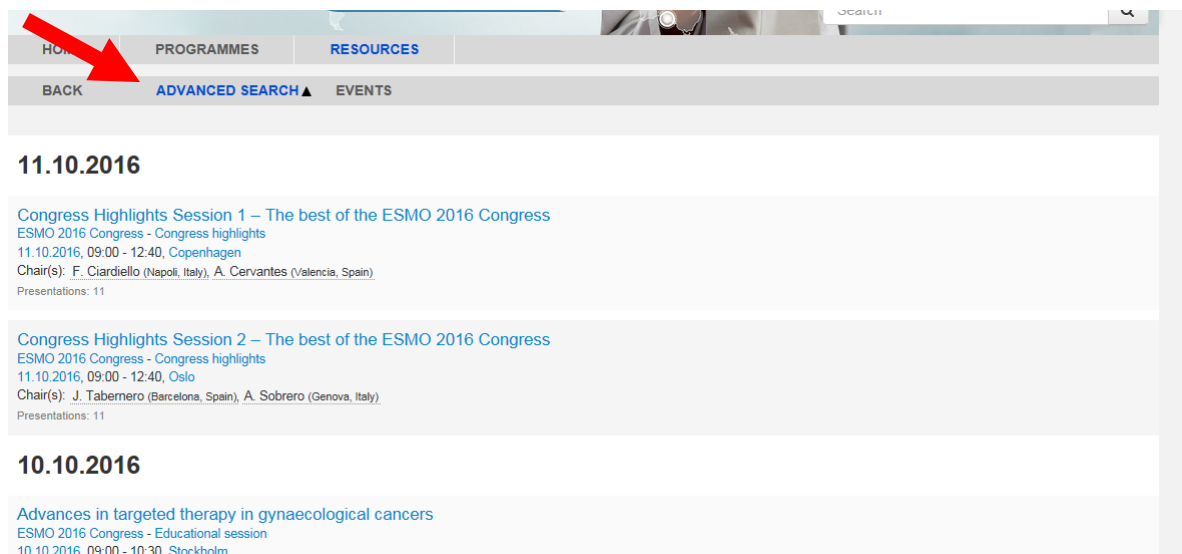

07.10.2016 08.10.2016 09.10.2016 10.10.2016 11.10.2016

ESMO Colloquium Opening session Special Symposium Educational session Patient Advocacy Track Industry Satellite Symposium Proffered Paper session Joint Symposium Special Session

	Copenhagen	Vienna	Stockholm	Madrid
10:00		10:15(1h 30m) Cancer Immunotherapy (CIT): What every oncologist should know		
11:00				
12:00	12:00(1h 20m) Opening Session and Award lectures - Followed by welcome refreshments			
13:00				
14:00	14:00(1h 30m) Genitourinary tumours, prostate	14:00(1h 30m) Metastatic colorectal cancer: Providing the continuum of care	14:00(1h 30m) New developments in the management of ER-positive metastatic breast cancer	14:00(1h 30m) Non-metastatic NSCLC and other thoracic malignancies

➤ THIRD STEP:

Click on “Advanced search” (in blue)

11.10.2016

Congress Highlights Session 1 – The best of the ESMO 2016 Congress
ESMO 2016 Congress - Congress highlights
11.10.2016, 09:00 - 12:40, Copenhagen
Chair(s): F. Ciardiello (Napoli, Italy), A. Cervantes (Valencia, Spain)
Presentations: 11

Congress Highlights Session 2 – The best of the ESMO 2016 Congress
ESMO 2016 Congress - Congress highlights
11.10.2016, 09:00 - 12:40, Oslo
Chair(s): J. Tabernero (Barcelona, Spain), A. Sobrero (Genova, Italy)
Presentations: 11

10.10.2016

Advances in targeted therapy in gynaecological cancers
ESMO 2016 Congress - Educational session
10.10.2016, 09:00 - 10:30, Stockholm

➤ FOURTH STEP:

Insert details of the abstract you are searching for (as for example presentation number, in CAPS)

163P - Breast cancer Ki67, tumor size and axillary nodes relationship: it's complicated
G. Bregni (Genova, Italy), E. Meneghini (Milano, Italy), G. Galli (Milano, Italy), S. Cavalleri (Milano, Italy), F. Di Salvo (Milano, Italy), H. Amash (Milano, Italy), B. Paolini (Milano, Italy), F. G. De Braud (Milano, Italy), M. De Santis (Milano, Italy), M. Sant (Milano, Italy), S. Di Cosimo (Milano, Italy)

Basic Science

3P - Dissecting the roles of Fra proteins in lung adenocarcinoma
A. Alfraldi (Madrid, Spain), L. Bakiri (Madrid, Spain), A. Utero (Madrid, Spain), M. Musteanu (Madrid, Spain), M. Barbacid (Madrid, Spain), E. Wagner (Madrid, Spain)

4P - Metallothionein 1H functions as a tumor suppressor in hepatocellular carcinoma
Y. Zheng (Hangzhou, China), L. Jiang (Hangzhou, China), N. Xu (Hangzhou, China), C. Xiao (Hangzhou, China), Y. Hu (Hangzhou, China), X. Wang (Hangzhou, China), L. Chen (Taizhou, China), H. Fang (Hangzhou, China), J. Zhu (Hangzhou, China)

5P - AMPKalpha1 restrains fibroblasts transformation and tumorigenesis in vivo
P. Song (Atlanta, United States of America), Y. Ding (Atlanta, United States of America), Q. Lu (Atlanta, United States of America), M. Zou (Atlanta, United States of America)

6P - The antitumor activity of lenvatinib (LEN) in combination with everolimus (EVE) in human renal cell carcinoma (RCC) xenograft models is dependent on VEGFR and FGFR signaling
T. Kimura (Ibaraki, Japan), Y. Adachi (Ibaraki, Japan), M. Matsuki (Ibaraki, Japan), A. Yamaguchi (Ibaraki, Japan), Y. Ozawa (Ibaraki, Japan), K. Okamoto (Ibaraki, Japan), K. Mitsuhashi (Ibaraki, Japan), T. Hoshi (Ibaraki, Japan), O. Tohyama (Ibaraki, Japan), K. Tai (Ibaraki, Japan), M. Ogo (Ibaraki, Japan), J. Matsui (Ibaraki, Japan), Y. Funahashi (Ibaraki, Japan)

7P - Identification of novel CRC pathway genes in familial CRC
M. Lung (East Melbourne, Australia), A. Trainer (East Melbourne, Australia), I. Campbell (East Melbourne, Australia)

8P - Efficacy of osimertinib in combination with Hedgehog pathway inhibitors in reverting T790M-mediated resistance
G. Esposito (Napoli, Italy), C. Della Corte (Napoli, Italy), F. Papaccio (Napoli, Italy), G. Viscardi (Napoli, Italy), M. Fasano (Napoli, Italy), T. Troiani (Napoli, Italy), E. Martinelli (Napoli, Italy), F. Ciardiello (Napoli, Italy), F. Morgillo (Napoli, Italy)

9P - SYM004, a novel generation anti-EGFR inhibitor, is able to overcome acquired resistance to cetuximab such as MET activation, ERBB2 amplification and EGFR mutations, in colorectal cancer models
