

2024

# PLATINUM-RESISTANT OVARIAN CANCER: BIOLOGICAL PATHWAYS, RESISTANCE MECHANISMS AND NOVEL TREATMENT OPTIONS

### Chairs

Nicoletta Colombo, Milan, Italy

Frederik Marmé, Mannheim, Germany

## SATURDAY, 22 JUNE 2024

### 12:20 – 13:20 CEST, AUDITORIUM

<b>12:20</b>	<b>Welcome and introduction</b>	Frederik Marmé, Mannheim, Germany
<b>12:25</b>	<b>Insights in the biology of ovarian cancer: The neglected pathways</b>	Frederik Marmé, Mannheim, Germany
<b>12:37</b>	<b>A clinical case of a patient with platinum-resistant ovarian cancer: Resistance mechanisms and state-of-the-art treatment options for patients who are not eligible for platinum-based therapies</b>	Nicoletta Colombo Milan, Italy
<b>12:49</b>	<b>The promise of antibody drug conjugates (ADCs) in ovarian cancer: Mechanisms of action and emerging therapeutics</b>	Toon Van Gorp Leuven, Belgium
<b>13:01</b>	<b>A clinical case of a patient on anti-folate receptor ADC: Efficacy and safety data from folate receptor targeting in registrational trials</b>	Kathleen Moore Oklahoma City, OK, USA
<b>13:13</b>	<b>Q&amp;A, discussion and concluding remarks</b>	Nicoletta Colombo Milan, Italy

This educational activity is provided by ESMO  
and supported by ImmunoGen.
