

ESMO 2024 Industry Satellite Symposium

Charting the Path: Cutting Through the Mysteries of Patient Characteristics for Precision in Endometrial Cancer Treatment

Friday, 13 September 2024, 10:15-11:45 CEST

Toledo Auditorium, Hall 3,
Fira Barcelona Gran Via, Barcelona, Spain

Program Agenda

Endometrial Cancer: The Current Treatment Landscape

Understand the current challenges and unmet needs in treating advanced stage or recurrent endometrial cancer, drawing upon insights from pivotal clinical trials and recent landscape developments

Evolving Molecular Considerations in Endometrial Cancer

How is the **prevalence of molecular subtypes** shaping our molecular understanding of endometrial cancer?

Patient Characteristics and Optimized Sequencing

Examine key patient characteristics to optimize treatment selection and sequencing in endometrial cancer, emphasizing the utilization of these characteristics to tailor therapy to individual patients

Regional Specific Treatment Approaches

Explore regional specific personalized treatment approaches in endometrial cancer through the analysis of real-world case scenarios

Panelists

Christian Marth, MD, PhD
Innsbruck, Austria

Xavier Matias-Guiu, MD, PhD
Catalonia, Spain

Ramez Eskander, MD
San Diego, US
