- Please add clearly the **FINAL PUBLICATION NUMBER** (FPN) to your poster. If you don't know your FPN, please check-in the poster list in the [online programme](#).
- You are strongly encouraged to concentrate only on the educational/scientific content of your poster, and avoid any message, statement or photograph of a political and/or religious nature. Should you include the latter, MAP organisers reserve the right to exclude your poster from the post-Congress resources.
- It is strictly mandatory that the first and presenting author includes a **disclosure statement** on the Poster, even if only to confirm that if he/she has no conflicts of interest to declare. Co-author disclosures are not mandatory on the Poster.
- At the bottom of the poster, please include your and/or the corresponding author email address. This will prove especially useful if another MAP Congress 2024 delegate wishes to contact you about your work.
- If the study has received funding, this must also be acknowledged on your poster: *"Study sponsored by..."*
- QR (Quick Response), AR (Augmented Reality), text key codes are allowed. However, although MAP organisers accept that these may go to a commercial/branded website, we suggest avoiding links to websites containing blatant product advertising. If you intend adding a QR, AR or a text key code to your poster, please add the following disclaimer notice: "Copies of this poster obtained through QR, AR and/or text key codes are for personal use only and may not be reproduced without written permission of the authors".
- Posters may not present a commercial bias or use clearly identifiable commercial templates. The MAP 2024 reviewers will be responsible for advising the Scientific Committee of any inappropriate commercial bias, promotion or branding unless clearly stated in a balanced and objective manner.

DESIGN

- **Layout:**
 - Format of the Poster is **vertical (portrait)**. The maximum Poster size is: **950mm width x 1500mm height**.
 - Keep data on the slide simple and ensure a logical order of the content. A clear and well-structured arrangement is the most attractive and the easiest to read.
- **Text:** Your guiding principle should be *"As much as necessary, as little as possible"*. The text should be concise and to the point, key facts may be highlighted.
- **Colours:** Colours should be used sparingly. Choose colour combinations that make your text easy to read (preferably dark background – light fonts; avoid red and green).
- **Images:** It is recommended that you collect your illustration material well in advance. Do not select too many images and concentrate on those which support your key points and conclusions optimally.
