LEARNING OBJECTIVES

- To learn about screening, prevention and diagnosis of cervical cancer
- To understand the standard of care management of early, locally advanced and metastatic cervical cancer
- To learn how to treat complications of cervical cancer and manage special situations
- To understand the important role of multidisciplinary management of cervical cancer

ACCREDITATION

The programme of this event has been accredited with **9 ESMO-MORA category 1 points**.

Recertification is necessary for medical oncologists to remain professionally certified by ESMO. Recertification guarantees that a certified medical oncologist has continued to update his/her knowledge and continues to possess the necessary skills and standards for the practice of medical oncology. For future details, please refer to esmo.org.
