

PRECISION MEDICINE IN ACTION: BIOMARKER-DIRECTED STRATEGIES FOR ADVANCED GASTRIC CANCER

When

Friday, 6 December 2024
12:00–13:30 SGT

Where

Hall 402, Level 4, Suntec Singapore Convention & Exhibition Centre, Singapore

Please join our expert faculty as they address the evolving therapeutic landscape, biomarker-driven treatment strategies, and practical approaches for integrating biomarker testing to personalize therapy for advanced gastric cancer.

Our experts

Dr Su Pin Choo

Curie Oncology
Singapore

Dr Sun Young Rha

Yonsei Cancer Center, Yonsei
University College of Medicine,
Korea

Dr Kohei Shitara

National Cancer Center
Hospital East, Japan

Dr Kristina Matkowskyj

Mayo Clinic
US

Agenda

Time (SGT)	Topic	Faculty
12:00–12:10	Welcome and opening remarks: Gastric cancer in Asia	Su Pin Choo (Singapore)
12:10–12:30	Precision medicine in gastric cancer: Targeted therapy approaches	Sun Young Rha (Korea)
12:30–12:50	Targeting CLDN in gastric cancer: A promising approach for treatment	Kohei Shitara (Japan)
12:50–13:10	Solutions and future directions for biomarker testing in gastric cancer	Kristina Matkowskyj (US)
13:10–13:25	Panel discussion: Challenges in the management of advanced gastric cancer	Faculty panel
13:25–13:30	Meeting close	Su Pin Choo

For healthcare professionals only.
