|------------------|--------------------------------------------------------|-----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| CO-CHAIRS | Maria João Cardoso, Portugal Nadia Harbeck, Germany | SPEAKERS | Alessandra Gennari, Italy Icro Meattini, Italy Joana Mourato Ribeiro, France Daniela Paepke, Switzerland Shani Paluch-Shimon, Israel Rachel Wuerstlein, Germany |
|------------------|--------------------------------------------------------|-----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

LEARNING OBJECTIVES

- To enable the interdisciplinary discussion and collaboration in the care of patients with breast cancer
- To understand subtype-specific breast cancer management
- To improve the understanding of current radiological and pathological diagnostics
- To understand the current developments in loco-regional treatments
- To learn about the latest developments in neoadjuvant and adjuvant therapies
- To gain insight into the role of complementary and lifestyle interventions and supportive care
- To review approaches to the care of patients with advanced breast cancer
- To learn about specific needs of young patients with breast cancer

Friday, 25 July 2025
