Trastuzumab deruxtecan DESTINY-Breast01

SCORE

CURATIVE

Overall Survival / Disease-Free Survival / Pathological Complete Response

NON-CURATIVE

Overall Survival

Progression-Free Survival

Non-inferiority (Improved Quality of Life or Reduced Adverse Events) / Response Rate

Overall Response Rate / Duration of Response

Overall Survival / Disease-Free Survival / Pathological Complete Response

INFORMATION

Therapeutic Indication: HER2-positive breast cancer that is metastatic (has spread to other parts of the body) or cannot be removed by surgery. HER2-positive means that the cancer cells produce a protein called HER2 in large quantities on their surface, which makes the tumour cells grow more quickly. Used on its own in patients who have received one or more HER2-targeted treatments
Experimental Arm: Trastuzumab deruxtecan
Control Arm: Single arm
