

# 5-FU/LV (fluorouracil + leucovorin) or 5-FU/LEV (fluorouracil + levamisole)

5-FU/LV (fluorouracil + leucovorin) or 5-FU/LEV (fluorouracil + levamisole)

## PRELIMINARY SCORE

### CURATIVE

### NON-CURATIVE

## ADJUSTMENTS

### Quality of life

### Serious and disabling adverse effects

### Other adjustments

5-FU/LV (fluorouracil + leucovorin) or 5-FU/LEV (fluorouracil + levamisole)

## FINAL SCORE

### CURATIVE

Overall Survival / Disease-Free Survival / Pathological Complete Response

### NON-CURATIVE

Overall Survival

Progression-Free Survival

Non-inferiority (Improved Quality of Life or Reduced Adverse Events) / Response Rate

Overall Response Rate / Duration of Response

Overall Survival / Disease-Free Survival / Pathological Complete Response

### INFORMATION

Tumour type: Gastrointestinal Cancers

Therapeutic Indication: Patients with stage II and III colon cancer (ITT and age stratified including >70 years)

Experimental Arm: 5-FU/LV (fluorouracil + leucovorin) or 5-FU/LEV (fluorouracil + levamisole)

Control Arm: Surgery alone (Meta-analysis)
